**Plexis Healthcare Systems Announces Partnership
with Vineyardsoft Corporation**

New partnership will provide Plexis clients with leading business activity monitoring software solution

Ashland, OR – March 19, 2009 - Plexis Healthcare Systems announced recently their formation of a strategic alliance with Massachusetts based Vineyardsoft Corporation. The partnership will provide Plexis clients with an advanced business activity monitoring (BAM) software solution that oversees critical business activities and automatically sends alerts when changing claims administration business conditions require attention. Vineyardsoft's enterprise wide "invisible assistant" software combines user-defined business intelligence, alerts, and workflow improvements that will help Plexis clients boost overall business efficiency. The alerts are automatic and deliverable via several media depending upon clients' needs and specifications.

"We are pleased to be able to offer this enhancement to our clients," commented Jorge Yant, CEO of Plexis Healthcare Systems. "Vineyardsoft's applications have proven their value in multiple industries and we are excited to provide their workflow improvements to our claims processing clients."

"Our software applications uniquely combine alerts and workflow to allow people to make more intelligent and timely business decisions – simply put, we provide operational business intelligence," explained Don Farber, VP Sales & Marketing, Vineyardsoft Corporation. "Business Activity Monitoring is such a critical component of the claims management process and we are excited to partner with Plexis in delivering these capabilities to their customers," Mr. Farber added.

About Vineyardsoft Corporation

Vineyardsoft Corporation is headquartered on Martha's Vineyard, MA, and is the leading developer of Business Activity Monitoring software. Founded by James R. Murphy, a pioneer in the development of customer relationship management software, Vineyardsoft enables clients to monitor and respond to critical, time-sensitive business data. Winner of TMCLab's "Editor's Choice" award, Vineyardsoft's KnowledgeSync product line was introduced in 1999 and is currently installed in over 5000 organizations around the world. Vineyardsoft's mission is to empower clients to respond more quickly, intelligently, and profitably to the changes in an organization's business where timing is critical to success, and where information needs to be delivered via email, fax, pager, PDA, cell phone, and the web.

About Plexis Healthcare Systems, Inc.

Plexis Healthcare Systems is a leading payer solution and claims processing/benefit administration software company based in Ashland, Oregon. Founded in 1996, Plexis software

is utilized in 7 countries by more than 90 companies providing administration for approximately 35 million covered lives. Plexis' family of core software products includes Plexis LCS for small and medium size third party administrators and self-funded groups; Plexis Claims Manager for mid-size, TPAs and managed care healthcare organizations; and Plexis Quantum Choice for middle to large government healthcare organizations, benefit administrators and payers. Plexis' solutions enable government healthcare organizations, health plans, TPAs and provider groups to automate and streamline benefit administration, claims payment and utilization management, enhance customer satisfaction and expand market share.
